

## eCarExpo 2023

### Bella Center, October 27-29, Hall C

In this document, you as an exhibitor get access to practical information, technical regulations and safety rules that apply to eCarExpo 2023 in Bella Arena, Copenhagen. It is up to you as the stand manager to pass on this information to the stand builder you choose to work with.

#### THE STAND

##### Your stand includes

- Floorspace only.
- Wireless internet.
- One daily cleaning (vacuuming of floor and emptying of any wastepaper baskets).
- Some stand includes walls, see in your order confirmation and also on the current drawing.

##### Carpet

It is mandatory for all exhibitors to have carpet or floor in their stand.

##### Wall Construction

If you want to set up a wall by your own (that is not included in your stand), you must follow the restrictions below.

- Wall construction along a corridor or in direct connection to a booth neighbor must be approved by the organizer and booth neighbor. Apply for permission to [moa@elife.se](mailto:moa@elife.se).
- Wall construction alongside an isle may only be covered 1/3 of the stand side.
- Partition dividing walls must be left neat and white to the neighbor.
- Exposure and constructions over 2,5 m must be approved by the organizer, read more under height construction.

##### Height Restrictions

eCarExpo has a fixed maximum height of 2.5 m that applies to all stand constructions and exposure such as banners, walls, signs, or other advertising message that takes place over a height of 2.5 meters. You must apply for permission for a higher building height, send your drawing for review to [moa@elife.se](mailto:moa@elife.se). A fee for height construction and advertising exposure will be added. The organizer has the right to demand dismantling if no permission has been granted for a specific build.

##### Rigging in ceiling

Bella Center must establish the rigging points, but you can use it to mount your own chain block. All wires at Bella Center Copenhagen must be rigged with a wire lock. These locks can be purchased at the Exhibitor Service during official build-up days followed by a rigging guideline. Due to safety reasons, it is forbidden to load the wires. If you need to lift equipment, you should use chain blocks in rigging points.

##### Use of sticking material

If you need to stick material on to Bella Center Copenhagen's stand walls and fascia boards you must use a tape called DuploColl 43102, because this kind of tape can be removed without leaving marks or damages. It can be purchased onsite at the Exhibitor Service, where you can also find wall hooks for light weight equipment (e.g. poster frames). If you do not remove sticking material from the stand upon departure you will be charged for damages.

The floor is a tiled light coloured concrete floor. Only removable tape is permitted. Power, plumbing, network etc. will be supplied via the subfloor service ducts. The fire ventilation windows in the ceiling are without inflow of lights.
